BELFORT DIGIWx II AWOS INSTALLED AT COLLEGEDALE AIRPORT

Baltimore, MD –April 21, 2008. The Collegedale Airport,(3M3) Collegedale, TN has just completed the installation of the Belfort DigiWx II AWOS AV system.

The Belfort DigiWx II is an automated weather system reporting FAA certified altimeter and FAA certified visibility with advisory winds, temperature and humidity. The real time weather report is available on a computer graphic screen, on the Internet, and over the Unicom radio as well as telephone dial-in. The DigiWx II is approved for FAA Part 91 and FAA Part 135 IFR approaches and is specifically designed for General Aviation airports and Heliports.

“With the installation of the AWOS the airport is increasing its commitment to aviation safety, this according to Frank Zarski, Collegedale Airport Manager”. He continues, “Adding the weather reporting system expands the operational capabilities of our community airport”.

###

About Belfort Instrument Company:

Belfort is a leading provider of weather instruments to the government, professional meteorology and aviation markets. From wind sensors for the Wright Brothers to state-of-the-art weather instruments for the ASOS (Automated Surface Observation System) platform and all US Navy aircraft carriers, Belfort continues to set the “Standard of Measurement” for the industry. The Belfort Instrument Company celebrated its 125th year in business in 2001!
