BELFORT INSTRUMENT ADDS GILL THREE-AXIS WIND SPEED AND DIRECTION SENSORS TO ITS PRODUCT OFFERING

BALTIMORE, MD. – Belfort Instrument Company, one of the country’s oldest meteorological sensor manufactures, has added the Gill Instruments line of three axis wind speed and direction sensors to its catalog.

The Gill three axis products consist of the WindMaster, WindMaster Pro, and the R3 and HS Research anemometers. Belfort has been a distributor for the Gill two axis anemometers including the WindSonic and WindObserver II for several years. “We are pleased that Gill has added their three axis products to our distributorship,” this according to Ralph F Petragani, Vice President Sales & Marketing, he continues, “Belfort will use it existing customer network to promote the Gill three axis products. The Gill reputation of quality fits well with Belfort’s reputation of providing the best in Meteorological sensors:

The list of Gill anemometers can be found on the Belfort web site; www.belfortinstrument.com

Belfort Instrument Company has been a leading provider of weather instruments to government, professional meteorology and aviation markets for over 130 years. Detailed information can be found at www.belfortinstrument.com and www.digiwx.com
