Belfort Instrument Company Launches New Web Site

Baltimore, MD –October 13, 2006. Belfort Instrument Company, one of the oldest meteorological instrument companies in America, launched their newly designed web site this week at www.belfortinstrument.com.

With new content and more user information, the Belfort site brings more information to new prospects as well as long established clients. “We feel it’s very important to have a web site that is relevant and up-to-date”, says Debra Alascio Vice President of Operations for Belfort Instrument, she continues “customers looking for products or services check the web first, we want users to find the information on Belfort products quickly and easily I think our new web page does that.”

The new web page was designed by The Canton Group, Baltimore, Maryland.

##

About Belfort Instrument Company:

Belfort is a leading provider of weather instruments to the government, professional meteorology and aviation markets. From wind sensors for the Wright Brothers to state-of-the-art weather instruments for the ASOS (Automated Surface Observation System) platform and all US Navy aircraft carriers, Belfort continues to set the “Standard of Measurement” for the industry. The Belfort Instrument Company celebrated its 125th year in business in 2001! For more information about Belfort Instrument and DigiWx, see our web sites at www.belfortinstrument.com and www.digiwx.com.
