SPARTA AIRPORT (8D4) INSTALLS DIGIWX II AWOS AV

Baltimore, MD –September 30, 2008. The Sparta Airport (8D4), Sparta, Michigan has just completed the installation of the Belfort DigiWx II AWOS AV system.

The Belfort DigiWx II is an automated weather system reporting FAA certified altimeter and FAA certified visibility with advisory winds, temperature and humidity. The real time weather report is available on a computer graphic screen, and over the Unicom radio as well as telephone dial-in. The DigiWx II is approved for FAA Part 91 and FAA Part 135 IFR approaches and is specifically designed for General Aviation airports.

“Sparta has shown its commitment to flight safety with the addition of the Belfort weather station, this according to Dick Roberts Airport Manager, he continues, “the DigiWx II AWOS will aid in economic development for the region by allowing better utilization of the airport.”

The DigiWx II is available via telephone 616 877-2039
